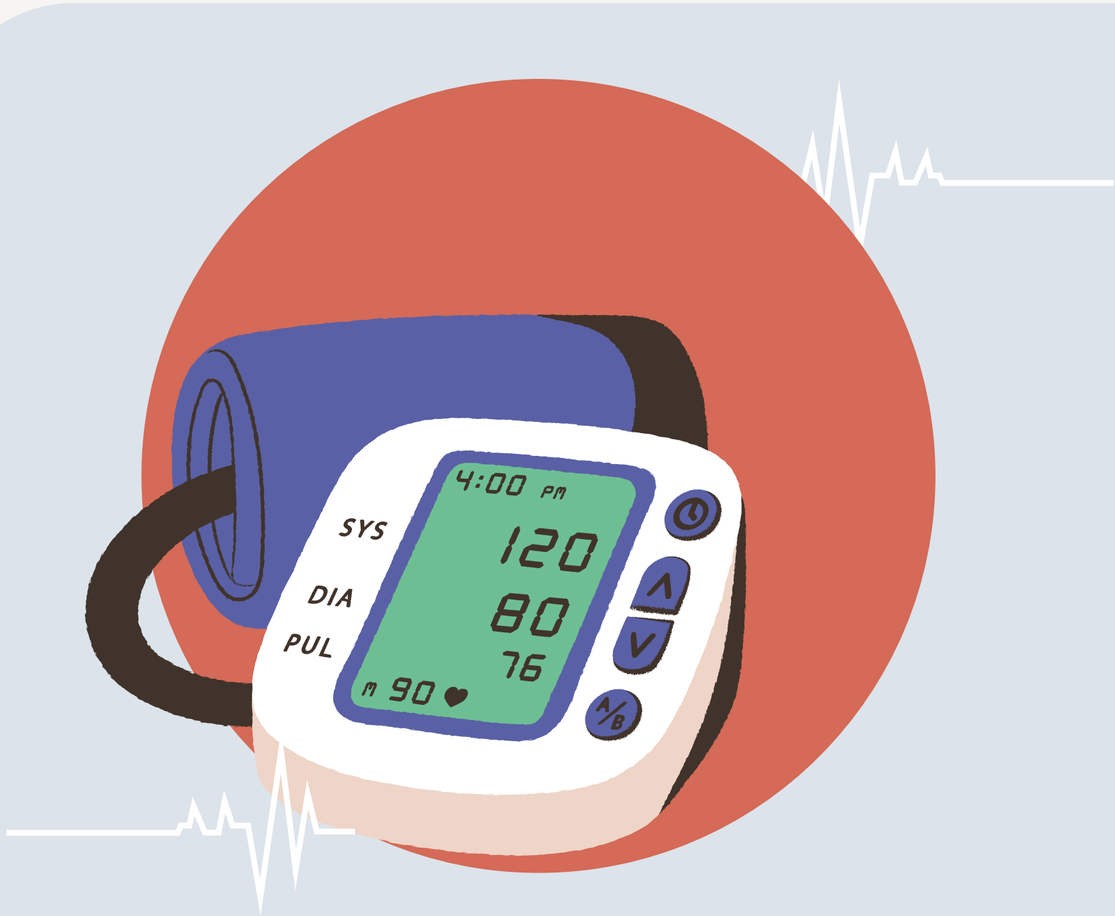
IROVEL H

Irbesartan & Hydrochlorothiazide Tablets USP



INTRODUCTION

- IROVEL H combines Irbesartan (an angiotensin II receptor blocker) and Hydrochlorothiazide (a thiazide diuretic).
- Designed to help manage high blood pressure (hypertension).
- Supports healthy cardiovascular function.
- Helps reduce the risk of hypertension-related complications when used as prescribed.

KEY BENEFITS

- Helps lower elevated blood pressure.
- Promotes healthy blood circulation.
- Supports long-term heart health.
- Dual-action formula for enhanced blood pressure control.
- Helps reduce cardiovascular risk when used with lifestyle modifications.

HOW IROVEL H WORKS

- **Irbesartan**
  - Blocks the action of Angiotensin II, allowing blood vessels to relax and widen.
  - Helps lower blood pressure and improve blood flow.
- **Hydrochlorothiazide**
  - Removes excess salt and water through urine.
  - Reduces fluid retention and decreases blood pressure.
- **Dual-Action Advantage**

✔️ Relaxes blood vessels
✔️ Removes excess fluid
✔️ Improves blood pressure control
✔️ Supports cardiovascular wellness

WHY CHOOSE IROVEL H?

- Effective combination therapy for hypertension.
- Dual-action blood pressure management.
- Supports healthy cardiovascular function.
- Convenient once-daily dosing (as prescribed).
- Trusted treatment option for long-term blood pressure control.
